I am sure by now many of you have heard the various articles in the news regarding the crisis in the use of opioids in Canada. At the January meeting of Nova Scotia Regulated Health Professions Network Dr. Rob Strang, Chief Medical Officer, Nova Scotia Department of Health and Wellness presented to the regulatory group on opioid use in Nova Scotia.

Below are the key messages from Dr. Strang’s presentation.

- there are two linked issues for Nova Scotia: the acute issue of the possibility of increasing amounts of illicit opioids as part of street drugs on top of the chronic issue of overprescribing of legal opioids and resulting dependency, misuse and overdose.

- for the past, several years there has been an average of 60 acute opioid overdose deaths annually in NS with almost all due to prescription opioids (OxyContin, hydromorphone, methadone) often in combination with alcohol and benzodiazepines. In 2016 there have been two deaths due to illicit fentanyl and several police reports of illicit fentanyl in the form of fake OxyContin pills.

- the departments of Health & Wellness and Justice are leading the development of a comprehensive response plan that will be tabled within the next 1-2 months for decision on government approval and funding.

- the response plan to this opioid crisis will propose immediate response needs to protect lives (harm reduction, increasing access to naloxone) as well as longer term solutions regarding access to treatment and improved opioid prescribing.

- there is work underway to link the opioid response to actions to improve acute & chronic pain management.

- the opioid response is an opportunity to raise discussion about the root causes of addiction.

- there are opportunities for all regulated health professions to become engaged in raising awareness with their members and participating in discussions about interventions and solutions.

Some of you may have heard Dr. Gus Grant, Registrar College of Physicians and Surgeons interviewed on the radio concerning the 2017 recommendations for opioid use. We would encourage you to review the recommendations as you consider how the changes may affect the clients you see in your practice or those you know in your personal lives who suffer from chronic pain.

Below is a link to that document.

SPEAKERS FOR UPCOMING AGM

Dr. Louis Bourget
Dr. Louis Bourget Bsc, Msc, PhD, DMD, FRCD (c), FIOMS.

Dr. Louis Bourget was a lifeguard and paramedic in the late 1970’s and early 1980. He received his Bsc in Physiology in 1983, and continued his research in physiology/anatomy and Biochemistry to complete his Masters and his PhD at McGill University by 1986. Accepted in a D.M.D. program at the McGill University, this degree was completed in 1990. A year of medical/dental internship allowed him to enter a Maxillofacial program at Dalhousie University in Halifax, Nova Scotia and completing a second Masters degree. After his Medical and surgical rotations, his training was completed by 1995. He received his FRCD in the same year. He spent some time in France doing a fellowship in Cleft Lip and Palate reconstruction and Facial esthetic. He completed a facial cosmetic fellowship in North Carolina and has taken extensive courses in advanced facial reconstruction all over North America and Europe.

He has an active staff position at the South Shore regional hospital and Eastern Regional Health authorities Hospital in NL. Part owner of the first accredited surgical suite in the Maritimes, he maintains a full time private practice in Oral and Maxillo-Facial functional and cosmetic Surgery all over the Maritimes.

He maintains his ACLS certification and board member of the National lifeguard service. One of his passion is his active role with his family foundation going on yearly Medical missions in Africa and Brazil, family and off shore sailing, skiing and martial art.

Dr. Lisa Johnson
Dr. Lisa Johnson graduated from the University of Toronto dental school in 1999, after which she went on to work in private practice for 13 years. During eight of these years, along with her husband, she owned and operated a dental practice in a rural community in Ontario. She returned to the University of Toronto in 2012, to complete a four year degree in oral pathology and oral medicine. During her specialty training she also completed a Masters of Science degree. In November 2016, she and her husband relocated to Halifax, where she took an assistant professor position at Dalhousie University.

Her duties at Dalhousie include research, teaching at the undergraduate and graduate level, and co-managing the biopsy service. Her special interests include mucocutaneous conditions, dysplasia and oral cancer and burning mouth syndrome.

Dr. Johnson is a new member of the Nova Scotia Dental Association and will be serving as their representative for “Smoke Free” NS. She is a member of both the Canadian and American Academy of Oral and Maxillofacial Pathology. In her spare time, Dr. Johnson enjoys cycling, hockey and taking long walks with her two dogs.

The next Council meeting will be held on May 5 & 6, 2017
FDA warns about rare but serious allergic reactions with the skin antiseptic chlorhexidine gluconate.

The U.S. Food and Drug Administration (FDA) is warning that rare but serious allergic reactions have been reported with the widely used skin antiseptic products containing chlorhexidine gluconate.

Chlorhexidine gluconate is also available as a prescription mouthwash to treat gingivitis and as a prescription oral chip to treat periodontal disease.

Health care professionals should always ask patients if they have ever had an allergic reaction to any antiseptic before recommending or prescribing a chlorhexidine gluconate product. Advise patients to seek immediate medical attention if they experience any symptoms of an allergic reaction when using the products. And to report side effects involving chlorhexidine gluconate or other medicines to the FDA MedWatch program.

To read the full safety announcement, go to: http://www.fda.gov/Drugs/DrugSafety/ucm530975.htm
AWARDS

Second Year Students at Dalhousie Smile!

CDHNS supports Dental Hygiene 2nd Year Student Presentations at Dalhousie University School of Dental Hygiene

First place ARTiculating the use of Atraumatic Restorative Treatment is (l-r): Alicia Bond, Ayesha Kottapalli, Jadeen Umscheid, and Emily Porter.

3rd place for Xerostomia went to students (l-r): Anniek Verhulst, Rachel van Vonderen, Amelia Wilson and Emily Devost. The men in the picture are Christen Hall from Hallmark and Raymond from United Dental Labs.

What is National Dental Hygienists Week™?

The month of April is Oral Health Month and an important part of this celebration is National Dental Hygienists Week™, celebrated annually in the second week of April. Focusing on the importance of maintaining good oral health practices and helping Canadians understand the role and importance of the dental hygiene profession, this annual event is sponsored by the Canadian Dental Hygienists Association (CDHA). The week's theme, "Oral Health for Total Health" reminds all of us that taking care of our mouth, teeth and gums positively impacts on other aspects of our lives.

Dalhousie Continuing Dental Education

particular interest to dental hygienists:

The CDHNS received a note from a member who had this to say about an upcoming CE speaker. “It is a real coup to have Dr. Sweet here to do a presentation. He is really an amazing and informative speaker.”

Dr. David Sweet, OC, presentation: “Behind the Crime Scene Barrier Tape – The View From the Forensic Scientist” - Saturday, May 27, 2017.

SATURDAY, APRIL 8, 2017 Success and Preparation for Special Needs Patients...plus Treating Patients with Autism, Presenter: Karen Raposa.

Dear friends and colleagues,

The Canadian Dental Hygienists Association (CDHA) has been busy advancing the causes of seniors’ oral health and access to care. Several articles were published in the recent Fall/Winter issue of Oh Canada! magazine, including two articles by your fellow Nova Scotia dental hygienists, Wanda Fedora and yours truly, on our experiences working with seniors and vulnerable populations.

The Office of the Chief Dental Officer of Canada is also committed to improving the oral health of Canada’s vulnerable populations. CDHA’s board had the privilege of meeting the newly appointed chief dental officer, Dr. James Taylor, at our February board meeting in Ottawa. Dr. Taylor gave a presentation on his role, responsibilities, and interactions with key stakeholders at the federal level. He works to ensure that oral health is included when policies regarding the overall health of Canadians are discussed, and he appreciates the important role that dental hygienists play in the healthcare system.

I was glad to meet Dr. Taylor in person since this meeting in Ottawa marked my last winter meeting as a CDHA board director. The nomination process is now open for a new director from Nova Scotia; the application deadline is March 15.

It was a pleasure to serve on the board on behalf of Nova Scotia, and I hope members in the province will continue to utilize the support, resources, and services that CDHA offers. There is an amazing staff in Ottawa that is available and willing to serve you!

Sincerely,

Joanne Noye, RDH, BA
CDHA board director, Nova Scotia

WHAT’S NEW AT CDHA?

PROFESSIONAL DEVELOPMENT

Webinars now on demand:

The Naked Truth: Bare Essentials for Baby Boomer Health
Sponsored by Philips

How to Put Your Purple On! For NDHW™

Webinars coming soon:

www.cdha.ca/webinars

Please note: CDHA’s PD offerings now have an expiration date of one year from the date of purchase or selection (in the case of free offerings) unless otherwise specified.

SUCCESS! FEDERAL GOVERNMENT WILL NOT TAX HEALTH AND DENTAL BENEFITS

On February 1, Prime Minister Justin Trudeau stated in the House of Commons that there would be no new taxes on health and dental benefits for Canadians. We thank all CDHA members and other Canadians who participated in the #donttaxmyhealthbenefits campaign and sent 160,000 letters voicing their concerns about the proposal to their members of Parliament.

NATIONAL TELEVISION ADVERTISING CAMPAIGN

CDHA is excited to launch another national television advertising campaign during this year’s National Dental Hygienists Week™. Highlighting the dental hygiene profession, these 30-second ads in English and French will run 70 times between April 8 and 14 on English and French national TV networks CBC, Slice, HGTV, the Food Network, and Séries+ with an expected audience reach of 4.5 million. The ads will also be distributed via a Google Video campaign, with an additional expected reach of 473,000. Watch our website in early April for the full viewing schedule.

SAVE THE DATE

• National Dental Hygienists Week™ 2017 will be held April 8-14. Plan to put your purple on! Watch www.cdha.ca/NDHW as details unfold.

AREAS OF INTEREST ON OUR WEBSITE

• Update Your Membership Profile: www.cdha.ca/profileedit

• Fact Sheets and Resources: www.cdha.ca/factsheets

• Media Releases, CDHA and our Members in the News: www.cdha.ca/press
The following CDHNS members have been nominated according to the rules set out and have accepted the nomination for election to the CDHNS Council at the AGM on June 3, 2017. Each nominee was asked to submit a brief biography and a statement of intent. The following names have offered for the five positions opening on Council:

**Lindsay Macdonald**  
Halifax  
Dalhousie University 2015

Lindsay is an active member of the Dental Hygiene community. In 2015 she was the President for the Dalhousie Dental Hygiene Student Society. She currently practices in an area that services a large low socioeconomic community. She is responsible for new patient in-take, exams, screening, oral/head/neck cancer checks and works to develop treatment plans for oral hygiene therapy.

**Statement of Intent:** I am actively pursuing a position on the CDHNS Council because as a relatively new practicing member of our College, I believe I can provide a unique perspective and new ideas to the management and governance of our members and our practice. With a keen interest in community health stemming from my own professional experience, in joining council, I hope to play a role in advancing our College/members involvement and visibility in the community through embracing new promotional strategies. If elected to Council I would also like to contribute to the development of introductory materials for hygienists new to the College/profession; areas that may seem unclear to individuals such as new graduates or those new to our province. I believe I would make a great addition to Council and I am motivated to take on a more invested role in my profession and its governing body.

**Mallory Pettigrew-Brent**  
Eastern Passage  
Dalhousie University 2010

For the past six years Mallory has had a part-time practice in Wolfville and more recently a part-time practice in Bridgewater from 2015-2016. In 2011 Mallory worked full-time in a private practice in Halifax. From 2007-2015 she volunteered with Big Sisters and Big Brothers, was the dental hygiene student representative on the Interprofessional Development Committee from 2009-2010 and currently volunteers her time with the Leukemia & Lymphoma Society’s Team in Training.

**Statement of Intent:** I am interested in serving on the CDHNS Council because I want to help shape the future of the dental hygiene profession. Being a part of the council will allow me to give back to the profession and better educate the public on the importance of oral health care.

**Carrie Morrsion**  
Dartmouth  
Dalhousie University 2007

Carrie works in a general practice and also attended the Dental Assisting program at Holland College in 1996. She was vice president of HDHS and for the last two years has served on Council and as a member of the Ownership Linkage Committee.

**Statement of Intent:** I would love to continue to be part of Council and continue to gain knowledge and experience within my profession.

**Jennifer Clark**  
Enfield  
Dalhousie University 2003

Jennifer has volunteered for the past two years with CDHNS and is Past President of Halifax Dental Hygiene Society.

**Statement of Intent:** I have already served for two years and have enjoyed my time and want to continue to serve.

**Nicole Stevens**  
Chester, Nova Scotia  
Dalhousie University 2013

Nicole has volunteered with Gift from the Heart, and was a previous CDHNS Council member and volunteered with the Fluroide Rinse program.

**Statement of Intent:** Over the past two years I’ve had the privilege to be part of the CDHNS Council and I’ve learned so much. I would love the opportunity to continue as a council member to better myself and the dental hygiene community!
AGM 2016 Minutes

1. Announcements
Patricia Grant, CDHNS Registrar, spoke to several housekeeping issues before the meeting began.

2. Call to Order
Joyce Lind, Chair of Council, brought the annual general meeting to order at 8:36am.

3. Welcome & Opening Remarks
Introduction of Council Members and Special Guests: Joyce Lind introduced the Council members in attendance and Dr. Robert Strang, the Chief Medical Officer of Health in NS.

4. Approval of Agenda
Motion: To approve the agenda as presented: Donna Samson, seconded by Angie Nowe. Motion carried.

5. Approval of CDHNS AGM May 24, 2015 Minutes
Motion: To approve the AGM Minutes from May 24, 2015: Kathryn Foote, seconded by Patti Powell. Motion carried.

6. Remarks:
Dr. Rob Strang, Chief Medical Officer of Health, Province of Nova Scotia on behalf of the Minister of Health the Honorable Leo Glavine.

Dr. Robert Strang brought greetings to the members of the College of Dental Hygienists of Nova Scotia on behalf of the Department of Health. Dr. Strang spoke to the government’s commitment to prevention, the overall oral health strategy in NS, and that multiple voices are needed to bring the message of the importance of oral health forward. Joyce Lind thanked Dr. Strang.

7. Canadian Dental Hygienists Association NS Director - Joanne Noye
Joanne Noye shared a presentation on the activities of the Canadian Dental Hygienists Associations over the past year. Highlights included the advocating for community fluoridation, lobbying on Parliament Hill, and promoting public recognition of dental hygienists across Canada.

8. Annual Report/Audit Statements
Motion: To receive the annual report and audit statements: Joanne Noye, seconded by Allison Craig. Motion carried.

9. Remarks: Michele Brennan, Council public member- Role of Public member
Joyce Lind introduced Michele Brennan, the Council’s first government appointed public member. Michele spoke to the members about her role as a public member and how she was selected to be on the CDHNS Council.

10. Report of the Nominations Committee- Chair Angie Nowe
Angie Nowe, Chair of the Nomination Committee, presented the Nominations Slate to the members on behalf of Council.

Motion: To accept the report from the Nominations Committee: Simone d’Entremont, seconded by Wendy Stewart. Motion carried.

11. Election of Council Members
Angie Nowe introduced the four nominees: Allison Craig, Shannon O’Neill, Vanessa Romain, and Donna Samson. There were four (4) positions open on Council and four (4) nominees; the nominees were elected by acclamation.

Motion: To approve the acclamation of the nominations: Wanda Fedora, seconded by Jennifer Clark. Motion carried.

12. Recognitions and Awards:
Recognition of Committee Members:
Retiring 2015/16
Joyce Lind recognized the members that had retired from the CDHNS Committees over the past year. Those in attendance who did not previously receive a certificate of recognition received one at the meeting.

“You Make Me Smile”: Courtney Reeves. Joyce Lind recognized Courtney Reeves as the winner of the “You Make Me Smile” Award. Courtney received the award as she was nominated for her dedication to oral health by one of her clients. Unfortunately, Courtney was not able to attend the AGM and will receive her prize at a later time.

Ambassador of the Year - Paulette Hawksworth
Shannon O’Neill was called to the stage to present the Ambassador of the Year Award to Paulette Hawksworth. Paulette received this award for her work with Smoke Free NS where she represented the CDHNS for many years. In the past year, Paulette, spoke at Law Amendments Committee in the legislature and participated in changing Bill 60 – Amendments to the Smoke Free Places and Tobacco Access Act.

Council Members - Joyce Lind recognized the retiring Council members; Simone d’Entremont and Karen Fuller. Both Council members completed two terms, for a total of four years each.

13. Adjournment:
The meeting was adjourned at 9:30am.

A reminder to all CDHNS members to keep your member profile updated.
If you have a change of address, change of name, email or phone number you are required to keep your profile updated.
North End Community Health Center: Preschool Screening Day

For the past three years during the month of April the North End Community Health Center on Gottingen Street has provided a preschool screening day where children aged 4-5 years old come into their facility to have their ears, eyes and teeth checked. There have been various dental hygienists along with one dentist from our community who have volunteer their time and expertise to provide these children with expert oral hygiene instructions and fluoride varnish treatments. Each year The College of Dental Hygienists of Nova Scotia has graciously provided toothbrushes for all of the children involved. I want to express thanks from everyone involved in this project to the CDHNS for their generous donations. Thank You.

Sincerely,
Teanne MacCallum, RDH

Pictured left are Denise Zwicker & Shauna Hachey providing care to a young preschooler.

Are you ready for STOP! Clean Your Hands Day? May 5, 2017

This year, we want everyone to really hone in on their internal monologue and start asking themselves: what can I do to change my hand hygiene practices? Not only can you improve your own habits, you’re setting a great, easy to follow example for everyone around you!

#AskYourself

So save the date and start thinking about how you’re going to celebrate STOP! Clean Your Hands Day this year. We’re hosting a video competition, a webinar (we also have a couple other tricks up our sleeves!) and we’ve got a website full of tools and resources at your disposal to make your event a success.

Some quick facts about blood:

- Every person’s body contains about five litres of blood (or 10.5 pints)
- There are approximately 450 ml of blood in one unit collected
- About 100,000 new donors are needed every year to meet demand
- Canadians are some of the most loyal donors in the world, donating more than two times per year on average
- It can take up to 50 units of blood to save a single car crash victim
- It can take eight units a week to help someone battling leukemia
- All it takes is one donation to Give Life
- Right now, somewhere in Canada, someone needs a blood transfusion to survive. You have the power to give them life.

it’s in you to give
Project Co-ordinator Leads the way with Data

As a follow up to the CDHNS white paper, *Dental Hygienists Prevent More to Treat Less*, the CDHNS has hired a project coordinator to work on moving forward on the 13 recommendations presented in the paper. The project coordinator is part-time and started in June 2016. Since beginning, the project coordinator has initiated a Next Steps Working Group, collated oral health data from Nova Scotia, developed a Strategic Plan, worked on developing partnerships with other organizations, and looked into external funding sources for projects. As a result, the CDHNS has met with several groups including the Department of Education and Early Childhood Development and the First Nations and Inuit Health Branch. The Project Coordinator has also started to reach out to the Community Health Boards to find out if it is possible to get on the Board's Council of Chairs meeting agenda in each of the four health zones. Currently there is a presentation booked with Northern Zone in Amherst.

If you are interested in co-presenting to the CHB Council of Chairs in your area, please contact the CDHNS office and leave your name and contact information with the administrative assistant or email Helen Pitman (helenpitman@eastlink.ca).

Map 1.3 (Above): Material Deprivation by Community Map: Material Deprivation Index is an index that combines unemployment rate, proportion of adults with less than high school education, and median individual income. The results are assigned to quintiles which determine 5 possible categories at 20% each. The results are mapped by 311 Community Counts communities.

The map below has data and the following tables were built based on the dataset “Census Population by 5 Year Age Groups” provided by “Finance and Treasury Board” and made available through the Nova Scotia Open Data Portal. (https://data.novascotia.ca/Population-and-Demographics/Census-Population-by-5-Year-Age-Groups/2zws-gisw)

---

“By fluoridating the water in 5 more communities (Truro, Amherst, Bridgewater, Yarmouth and Antigonish) it is possible to increase the number of Nova Scotians receiving optimally fluoridated water by almost 53,000 people.”

“Seniors living in long term care facilities have more oral health needs than seniors living in the community.”
CONTINUING COMPETENCY COMMITTEE REPORT: 2016 AUDITS

The Continuing Competency Committee met on Saturday, February 4, 2017, to conduct the 2016 audits. Audits were completed for those members selected by the external auditor, whose cycle ended on December 31, 2016.

A total of 38 members were audited, 31 were found to be complete and 7 were incomplete pending due to the member submitting incomplete documentation. Three members did not submit a Continuing Competency Record Form and/or additional verification documentation was required. Please send in as much verification for courses as possible especially the start and end times of courses. This ensures accuracy in awarding continuing competency credits. Wherever possible please submit the CDHNS certificate of attendance and this certificate is required to obtain full credit for the CPR courses.

Congratulations to those members whose audit were found to be complete with no follow up required.

Throughout the audit process, it was noticed and recorded that many individuals completed credits after audit notices were received on December 1, 2016 to complete many of their continuing competency credits. This brings into question if the audit credits would have been completed had they not received audit notice. It is strongly recommended that members obtain their Continuing Competency Credits over the entire course of their cycle to fulfill your professional responsibility.

The Continuing Competency Committee will meet again in November. At the November meeting the Committee will review and revise the Continuing Competency Guidelines. One area which will be reviewed is restricting the number of credits which can be received in a 24 hour period.

Online Recording - Phase Incomplete 2018

The phase in period of required online recording of continuing competency credits is almost complete. Credits must be recorded online for those members whose cycles ended in the past two years. The group whose cycle ends on December 31, 2017 will be the last group and will complete the phase in period.

Continuing Competency Guidelines – revisions

Members are encouraged to refer to the Continuing Competency Guidelines when determining the category and number credits for their continuing competency activities. The Committee approved the changes to the Continuing Competency Guidelines drafted in September 2016. The revised Guidelines are available on the CDHNS website.

Most revision were changes in wording to clarify statements or to correct any typos present.

Other changes include:

4.2 Starting in 2018 all registrants will be required to record their CE documentation online through the registrants login on the website. (see online recording phase in above)

6.2.1 (c) For each dental hygiene, related article published in a refereed journal of dental hygiene/dental literature, 10 credit hours will be given.

6.3.2 (b) A course attended for non-clinical office software training which benefits record keeping in the dental office.

Approved and published in Feb. 2016

7.2 STUDY CLUBS

5. (b) Study clubs that do not submit their annual report will be struck from the College’s list of recognized study clubs. A reinstatement fee of $50.00 will be charged to study clubs that do not submit their annual report by December 31 and the Study Club must file the late document. Failure to file the report with the CDHNS and/or pay the fee will result in no credits being awarded for continuing competency activities completed during the preceding year.

New Committee Chair and Vice Chair

After two years, I stepped down as Chair of the Continuing Committee at the February meeting. The Committee has forwarded a recommendation to Council that Sonya Bishop and Sandra Roddenizer be appointed the Chair and Vice Chair respectively at the Council’s next regular meeting on May 5 and 6, 2017. -

Come join us!
The Continuing Competency Committee is recruiting two new members this year. The committee meets twice a year and responds to members concerns via email throughout the year. If you have been looking for a meaningful way to involve yourself with the CDHNS and your profession, this is it. Call or email the CDHNS at (902) 444-7241 or info@cdhns.ca

Jennifer Cox, Continuing Competency Chair (2016)
ANNOUNCEMENTS

Staff Changes at CDHNS
Jennifer Mackay Myra resigned from the CDHNS effective January 13, 2017 after being the CDHNS’s administrative assistant for six years. We will miss Jenn and her efficient management of the front desk and data base. The CDHNS wishes her well wherever life takes her in the future.

On February 06, 2017, we were joined by two new staff members, Patti Dunn and Renee Field.

Patti Dunn is our new full-time administrative assistant. Patti’s role will include being the administrator for the CDHNS data base, reception duties and providing admin support services to the Registrar, Council and Committees and the Member Resource Centre.

Patti completed a Diploma with Honours in Health Office Administration at Willis College - Smiths Falls, ON and recently worked as a Health Office Administrator in Ontario. You can contact Patti at admin@cdhns@eastlink.ca or when you call the College you can speak with her in person.

Renee Field joins the CDHNS team two days per week as the Member Services Co-ordinator. In this position her responsibilities will be in planning and implementing the activities and programming for members including the annual Continuing Competency Event, strategic and ongoing communication support, research and write material for publication and media.

Renee’s education is in journalism. She worked as marketing manager with the Downtown Halifax Business Commission, where she established, created, fund-raised and organized downtown Halifax programs including many special events. Renee is also the Founder of StoryFinds.com Inc., where she created and designed an on-line advertising company to showcase eBooks. You can reach Renee at members@cdhns.ca or by calling the CDHNS at (902) 444-7241 Mondays and Wednesdays.

Please join us in welcoming Patti and Renee to our team! The CDHNS will be holding training sessions and professional development over the next few weeks to integrate and build our team. During this transition period, we ask for your usual cooperation and patience if response times or other delays should occur.

STUDY CLUB ANNOUNCEMENTS
